

Digestive Feed Additive "DDA" / Pro Paste

FEATURES

- Bio-available Trace Minerals
- Enhanced with Probiotics
- Yea-Sacc®1026 – 5g / 2 oz
- Integral® A+ – 4.6g / 2 oz
- Beneficial Bacteria
- Bio-Mos®

INGREDIENTS

Distillers dried grains with solubles, calcium carbonate, brewers dried yeast, yeast culture, hydrolyzed yeast, corn oil, dried Lactobacillus acidophilus fermentation product, dried Entero-coccus faecium fermentation product, zinc methionine complex, zinc proteinate, manganese proteinate, copper proteinate, cobalt proteinate, choline chloride, dextrose, sodium aluminosilicate, hydrated sodium calcium aluminosilicate, and natural and artificial flavor.

AVAILABLE SIZES:

- 5# Bucket • 20# Bucket
- 40# Bag
- (40 Days • 160 Days
- 320 Days Supply)

FORMULATED WITH
Altech
SOLUTIONS

PROBIOTIC PASTE

INGREDIENTS

Soy oil, dextrose, silicon dioxide, lecithin, dried Lactobacillus acidophilus fermentation product, natural apple flavor, dried Enterococcus faecium fermentation product.

FEEDING DIRECTIONS

Apply **dac**® PROBIOTIC PASTE between lower teeth and cheek as needed at the following recommended rates:

Foals:	5 cc
Adult:	10 cc

GUARANTEED ANALYSIS

(Per Scoop – 1 ounce)

Crude Protein (min)	12% (3,400mg)
Crude Fat (min)	6% (1,700mg)
Crude Fiber (max)	6% (1,700mg)
Calcium (min)	9% (2,550mg)
Calcium (max)	10% (2,835mg)
Copper (min)	.85ppm (2.4mg)
Zinc (min)	470 ppm (13.3mg)
Manganese (min)	220 ppm (6.2mg)
Cobalt (min)	8 ppm (0.22mg)
Saccharomyces cerevisiae (min)	(12.4 billion cells)
Lactobacillus acidophilus (min)	(283 million CFU)
Enterococcus faecium (min)	(283 million CFU)

FEEDING DIRECTIONS

dac® DIGESTIVE FEED ADDITIVE can be fed with either fortified or unfortified grains. Fortified grains contain added vitamins and minerals. **dac**® DIGESTIVE FEED ADDITIVE can be fed to all classes of horses. Feed **dac**® DIGESTIVE FEED ADDITIVE at the following rates:

Horses:

1000 lbs. or larger	2 ounces (2 scoops) per horse per day
500- 1000 lbs.	1 ounce (1 scoop) per horse per day
Less than 500 lbs.	1/2 ounce (1/2 scoop) per horse per day

SPECIAL INGREDIENTS

dac® DIGESTIVE FEED ADDITIVE provides a nutritional aid to support digestion for horses. **dac**® DIGESTIVE FEED ADDITIVE is enhanced with probiotics.

YEA-SACC®

Yea-Sacc®1026- is a live yeast culture derived from the specific yeast strain Saccharomyces cerevisiae 1026. **Yea-Sacc**®1026 increases fiber, phosphorus and calcium digestibility in mares, and increases gross energy, total lipids and amino acid absorption. **Yea-Sacc**®1026 improves milk availability to foals if administered for 3-4 weeks before and throughout the lactation period.

BIOPLEX®

Bio-available Trace Minerals- or chelated minerals are those that have been bonded to two or more amino acids. A mineral in this chelated state allows easy passage through the intestinal wall into the blood resulting in increased metabolism of that mineral. **dac**® DIGESTIVE FEED ADDITIVE utilizes organic minerals to increase availability and enhance absorption rates.

BIO-MOS®

Bio-Mos® is derived from a specific strain of yeast and improves animal performance. Gastrointestinal (GI) health and integrity is essential for animal performance and Bio-Mos® 'feeds the GI tract' and thus plays a critical role in animal nutrition and performance.

INTEGRAL® A+

Integral® A+ - is a natural solution to help animals achieve their true potential. Its highly successful technology has proven efficacy in over 65 peer-reviewed in-vivo trials.

Probiotics- are live microorganisms (including beneficial strains of bacteria) thought to be beneficial to the horse. These natural additives help maintain the correct balance of microflora in the large intestine and cecum to help bypass nutrients be completely digested in the gut.
